The purpose of this contest is to incorporate the ability to think on your feet and produce a project under pressure. Projects are judged based on workmanship. Projects will not be painted nor will students have much time to cosmetically alter the project in the time allotted.

1. Each team (4 individuals) may only use the equipment they bring. Nothing will be furnished including electricity. A team may bring as many welders, grinders, torches, etc.... as needed. NO GMAW OR FCAW ALLOWED!!
2. We will not guarantee a level surface to work on. Plan accordingly.
3. You will be allowed 15 minutes with your Ag teacher once your spot has been assigned and a horn blows. A second horn will blow signaling the 15 minute time limit. Ag teachers can give verbal advice to students throughout the day, but may not enter the designated work area after the 15 minute period.
4. You will have approximately 8 hours to complete the smoker. Once the final horn blows you will walk away and the judging will begin.
5. The judge's decision is final.
6. Each Team will be given a critique sheet after awards.
7. Safety will be judged as well throughout the contest.
8. You will furnish your own rods, grinding rocks, and cords.
9. Your metal will be pre-cut and set out for you to use. The Pipe for the BBQ pits will be cut to length.
